

BG Premium ATF

PN 313

Problem: Today's automatic transmissions put a tremendous demand on the fluids that protect them. Heat, moisture and close gear tolerances severe to contaminated and shear ordinary ATF's to the point they no longer perform well, thus robbing the car of power and performance. Left in a transmission, worn out ATF can leave harmful deposits of sludge, varnish and metal debris that can eventually ruin the transmission.

Solution: BG Premium ATF is formulated for use in automatic transmission of autos, trucks and buses where Dextron III or Mercon ATF is specified. This product is a premium blend of high quality, high VI base oil and modern additives. It exhibits superior oxidation resistance and heat reversion for longer service life.

Benefits:

- Excellent anti-wear protection; increases transmission life
- Outstanding oxidative stability, foam resistance and corrosion control
- Exceptional low temperature fluidity
- Excellent shear stability to ensure a long service life
- Guarantees peak transmission operation during high temperature operation
- Shift quality improved
- Maximum protection for towing and severe service

Usage: This product can be used in the following automatic transmissions if accompanied with BG Kit # 6600 and used in 30,000 mile intervals :

- GM Dexron II, III
- Ford Mercon V
- Chrysler ATF+3® and ATF+4® fluids
- Toyota (Lexus) Type T, T-III and T-IV fluids
- Mitsubishi Diamond SP-II and SP-III fluids
- Honda ATF-Z1 fluid (except in CVT's)
- Nissan/Infiniti J-Matic Fluid, D-Matic Fluid and K-Matic Fluid
- Allison C-4
- Hyundai SP-III ATF

BG Products Of Illinois , stand behind their full line of products, including BG Premium ATF. Using BG Premium ATF in place of above specified fluids **will not** void a vehicle warranty. If, however, any transmission becomes damaged as the result of proper use of BG Premium ATF, please contact BG Products Of Illinois at 630-827-3551.
